

AG100-001

Universal Air Gap for Water Softeners and Filters with 1/2-inch OD or 5/8-inch ID Inlet Port (MR. DRAIN)

Features:

- 1/2-inch OD inlet port for 1/2-inch PVC
- 5/8-inch ID inlet port for polyethylene tubing
- Installs in both 1 ½-inch and 2-inch standpipes
- Standpipes can accommodate up to 3 units at a time
- Legal to install in any state, UPC Listed, IPC and NSF tested

General Description:

The AG100-001 Universal Air Gap is designed to provide an effective way of connecting water softeners and water filters to 1-1/2 and 2-inch drain lines.

The AG100-001 features a single inlet port that connects 1/2-inch piping or 5/8-inch tubing from water softener or filter to drain line. The unique feature of this air gap is being able to accommodate 1½” and 2” standpipe drains with ease. In addition, a special design of this air gap enables installation of multiple air gaps into the same drain connection. Up to 3 AG100-001s can be installed into the same drainpipe to provide total of three simultaneous water discharge connections.

The AG100-001 uses a special plastic material that minimizes mold growth and provides a strong connection between piping, tubing and drain line.

The AG100-001 air gap drain adapter is listed by UPC® and tested for compliance with IPC® and NSF® standards.

Mechanical Specifications:

- Width: 2-inches
- Height: 6-1/2-inches
- Air gap Size: >1 inch

Inlet/Outlet Specifications:

- Inlet: 1/2-inch OD, 5/8-inch ID
- Outlet: Fits 1-1/2 to 2 inches standpipe drains

Material

- Body Polystyrene, Gray

Alternative PN:

- 34700
- MR. DRAIN

Approvals

- UPC Listed
- IPC Tested by independent lab
- NSF Tested by independent lab
