

AG170-007

Right Angle Dual Barb Elbow 5/8-in,
3/8-in, 1/4-in

Features:

- Easy connection to discharge hoses
- Accommodates 5/8-inch ID outlet tubing
- Accommodates 3/8-inch and 1/4-inch ID inlet tubing
- Tested at over 4 GPM flow rate
- Can be used with steel worm clamps
- Easy to cut to size
- Does not deteriorates with time

General Description:

The AG170-007 is a right-angle barb elbow that accommodates 5/8-inch ID hose on the outlet side and 3/8-inch or 1/4-inch ID on the inlet side. Dual barb enable user to decide which hose to use. If 1/4-inch part is not used, simply cut it off to use 3/8-inch side.

Made from high impact polystyrene, this right-angle barb adapter is strong enough for use with metal worm clamps. Ideal for water softeners, RO systems and other appliances.

Mechanical Specifications:

- Width (5/8 barb): 1-5/8-inches
- Height (multi barb): 2-inches

Inlet/Outlet Specifications:

- Inlet (barb): 1/4, 3/8 inch
- Outlet (barb): 5/8 inch

Flow Rate: 4 GPM

Material

- Body Polystyrene
