

AG180-002

Universal Multi Drain Air Gap for Condensates and Water Softeners/Filters with ½ inch and ¾ inch Pipe Adapters

Features:

- Installs to 2-inch standpipe or a drain grill
- Provides up to 5 ports for all drainage requirements
- Easy to install and maintain
- Multiple accessories provide an easy way to accommodate 1/2-inch and 3/4-inch inlet pipes
- Can be glued in place for permanent installations

General Description:

The AG180-002 Universal Air Gap is designed to provide an effective way of connecting condensate drains, water softener drains and water filter drains to a drain line. The universal air gap is designed to be installed on 2-inch standpipes or attached directly to the floor drain grill.

The AG180-002 features three inlet ports that connect 1/2-inch PVC pipes or 3/4-inch PVC pipes to a drain line. The unique feature of this air gap is to be able to accommodate any number of drain lines draining together.

The AG180-002 provides a strong connection between drain lines and drain standpipe. Multiple accessories provide an easy way to connect any number of drains at the same location.
