

AG200-009

Reverse Osmosis Air Gap with 1/4-inch Push-in Inlet and 3/8-inch Outlet for With Tank and Tankless Reverse Osmosis Filters

Features:

- Accepts 1/4-inch O.D. tubing from a reverse osmosis filter (tankless or with tank)
- Connects to drain with a 3/8-inch O.D. tubing
- Provides 1/4-inch push-in connector for RO discharge
- Provides 3/8-inch push-in connector for discharge tubing
- Eliminates gurgling or dripping sounds
- Provides long thread for mounting through a thick counter-top
- UPC® listed, tested for compliance to IPC® and NSF® standards

General Description:

A dishwasher air gap is a critical component in maintaining a safe water supply. It prevents contaminants in the sink from flowing into the dishwasher and is required by code in most states.

The AMERIGAP brand reverse osmosis air gap provides a 1/4-inch push-in quick connect inlet that accommodates both with tank and tankless reverse osmosis filters. It also provides a 3/8-inch push-in quick connect outlet to drain RO filter.

This air gap is easy to install, easy to use, and easy to maintain. The AG200-009 air gap is listed by UPC® and tested for compliance with IPC® and NSF® standards.

Mechanical Specifications:

- Width: 1-3/4 inches
- Height above counter: 2 inches

Accessories (included):

- Cover cap
- Bottom nut
- Mounting washer
- Top housing
- Top nut

Inlet/Outlet Specifications:

- Inlet: 1/4-inch push-in
- Outlet: 3/8-inch push-in

Material

- Body: Polypropylene
- Decorative cap: Chrome plated ABS

Approvals

- UPC: Listed
- IPC: Tested by independent lab
- NSF: Tested by independent lab
