

AG250-002

Tap-a-Flow® Dual Hot/Cold Mechanical Water Valve Control

Features:

- Precise hands-free control of the water flow
- Hot/cold water control
- Mechanically activated through stainless steel cable
- Easy to install with few tools

General Description:

The AG250-002 Tap-A-Flow dual hot/cold water mechanical water valve provides hands-free faucet operation in combination with AG250-103, AG250-203 and AG250-303 stand-alone sink pedals, and is included in AG250-811, AG250-812 and AG250-813 installation kits.

To install Tap-A-Flow water valve with the sink pedal, drill a few holes, route control cable, and mount the valve in-line with hot and cold water.

Mechanical Specifications:

- Width: 3-7/8 inches
- Length: 3-5/8 inches

Mechanical Valve Specifications:

- Pedal Rating: 5,000,000 operations
- Valve Rating: 1,000,000 operations

Control Cable Length: 43 inches

Material

- Valve Body Plastic
- Valve Control Silicone Membrane

Accessories (included):

- Control cable
- 30-inch Supply hoses
- Mounting hardware

Warranty

- 3 years
