

ET112-004

Drain Line Adapter (DLA) with 7/8-inch Barb Fitting for Dishwashers or Water Softeners

Features:

- Comes with all the fittings and instructions needed for installation
- Resists clogging for life long, trouble-free operation
- Minimizes water draining noise
- No drilling into wet pipes
- UPC® Listed, IPC® and NSF® tested, ASTM F 409 compliant

General Description:

The ET112-004 is a drain line adapter for dishwashers or water softeners used with multi-compartment or single-compartment sinks without garbage disposal. It is designed to connect discharge 7/8-inch tubing from a dishwasher/water softener to the drain. The ET112-004 is connected to the sink drainpipe to receive the reject water from the dishwasher/water softener. The installation provides a reliable and trouble-free connection of the 7/8-inch discharge water tubing to the drain line.

The ET112-004 is designed for residential and commercial use. The ET112-004 is the preferred way to connect a dishwasher/water softener to the drain line. It minimizes water-draining noise and is designed to be installed downstream of an approved air gap. The ET112-004 provides a safe and effective way to comply with all local plumbing codes.

The ET112-004 drain adapter is listed by UPC and tested for compliance with IPC and NSF standards.

Mechanical Specifications:

- Width: 3-1/2 inches
- Height: 5 inches

Inlet/Outlet Specifications:

- Inlet: 7/8-inch barb insert
- Outlet: 1-1/2 inches

Accessories (included):

- 3-Way Repair Tee
- 7/8-inch barb insert
- (3) 1-1/2 inches slip joint wing nuts
- (3) 1-1/2 inches slip joint beveled washer

Material

- Body: Reinforced polypropylene

Approvals

- UPC: Listed
- IPC: Tested by independent lab
- NSF: Tested by independent lab
