

ET170-018

1/2-inch ID x 1-inch deep Black Vinyl End Cap

Features:

- Black vinyl plug designed with an 1/2-inch ID and measures about 1-inch in length
- Used for sealing off the 1/2-inch barbed connectors of the ET117-007 and -008 air gaps, and of the ET170-005, ET170-006, ET170-009, ET170-010 air gap adapters when the system to which they are connected is not in use

General Description:

The ET170-018 is a black vinyl end cap with a push-fit fitting style that is used to cover the 1/2-inch barbed connectors of the ET117-007 and ET117-008 air gaps, and the ET170-005, ET170-006, ET170-009, ET170-010 air gap adapters when not in use.

The ET170-018 vinyl cap is easy to install and is designed to be flexible, allowing for stretching without tearing or splitting. The ET170-018's flexibility ensures an optimal seal between the cap and the 1/2-inch barbed connectors.

Mechanical Specifications:
